

THE THREE POWERS SONG

By Dawg

Have you ever felt like you're all alone
When other people's words cut you to the bone
Getting you down with a sigh and a frown
Well let me tell you how to turn it all around

Three powers
Are all you need
To help get through and really succeed
At loving yourself
And after awhile
You'll find you can't help but smile

The Three Powers are here for you
The Magic of Loving yourself, it's true
Count 'em up and you will see
It's really as easy as one, two, three
The Power of Love
The Power of Faith
The Power of Words can be yours
Then watch your confidence
As it soars

Three powers
Are all you need
To help get through and really succeed
At loving yourself
And then you'll see
You let their words slide right off your back
And keep your positive thoughts on track
Full of love and joy and happiness
Put the three powers to the test
Cuz every kid deserves, including you,
A happy life and more it's true
Three powers
The strength, you'll see
To be the happy kid you deserve to be!
